Under God

Garry Wills

Under God Garry Wills

In Under God, Garry Wills, one of our liveliest and most eminent political observers, moves through the tapestry of American history, illuminating the instances where American politics and American religion have collided.

Beginning with the 1988 presidential contest, an election that included two ministers and a senator accused of sin, Wills surveys our history to show the continuity of present controversies with past religious struggles and argues that the secular standards of the Founding Fathers have been misunderstood. He shows that despite reactionary fire-breathers and fanatics, religion has often been a progressive force in American politics and explains why the policy of a separate church and state has, ironically, made the position of the church stronger.

Marked by the extraordinary quality of observation that has defined the work of Garry Wills, *Under God* is a rich, original look at why religion and politics will never be separate in the United States.
