THE SECRET OF SUCCESS

Frank E. Mitchell wrote this book in 1894 during a time people were searching for common reasons for success. The English is easy to read, and does not have any of the “heavy” language common in the time.

Principles of success don’t change, or they wouldn’t be principles. Things like persistence, honesty, hard work, etc., are successful in every generation.

This book is from the time when authors described a group of essential character traits needed for success. He gives many examples, and makes them relevant for people trying to be successful in an ordinary life.

Today’s world is difficult for people, and it’s hard to find a dose of optimism, especially for young people. Times will get better, as they always do. Now is the time to learn the skills of success, and to practice building the foundation for success. There are many types of success besides “money success,” and we may as well enjoy those.
