The Social Contract and Discourses

Jean-Jacques Rousseau

The Social Contract and Discourses Jean-Jacques Rousseau

Inspired by ancient Greek city states, Rousseau searched for a way which states of his day could be equally representative

Holding men in wretched subservience, feudalism—alongside religion—was a powerful force in the eighteenth century. Self-serving monarchic social systems, which collectively reduced common people to servitude, were now attacked by Enlightenment philosophers, of whom Rousseau was a leading light.

His masterpiece, *The Social Contract*, profoundly influenced the subsequent development of society and remains provocative in a modern age of continuing widespread vested interest.

This is the most comprehensive paperback edition available, with introduction, notes, index and chronology of Rousseau's life and times.
