Red Sky at Morning Made in DNA

An outsider investigates the horrific murders of children in the F-storm scoured wastelands of northeastern Japan. Shunned by the local police officials, he must use his wits and a little bit of faith to fight an evil older than humanity itself.

An original dystopian Cyberthulhu (cyberpunk Cthulhu) short.

"Gripping fantastical cyber noir. Fast-paced and smart, greased lightning poetry, it reminded me a bit of my father at times. Damn, one hell of a vivid writer!" --Trent Zelazny, author of Fractal Despondency.

"For a short story to blend cyberpunk, crime thriller, the Cthulhu Mythos, and Buddhism, set it all in futuristic Japan, and stage the climactic scene in a mystical virtual reality, is just plain ballsy. To pull it off is just plain brilliant. Made in DNA has a new fan." -- Jeffrey Thomas, author of Monstrosity.
