The 15th and last edition has a three-part structure: a 12-volume Micropædia of short articles (generally fewer than 750 words), a 19-volume Macropædia of long articles (two to 310 pages) and a single Propædia volume to give a hierarchical outline of knowledge. The Micropædia is meant for quick fact-checking and as a guide to the Macropædia; readers are advised to study the Propædia outline to understand a subject's context and to find more detailed articles. The size of the Britannica has remained roughly constant over 70 years, with about 40 million words on half a million topics. Although publication has been based in the United States since 1901, the Britannica has largely maintained British spelling.
