This set places one or a couple of words of the 'ayah in one line of a column and gives their meanings side by side in another column, taking care to see that the flow and intelligibility of the English meanings are not thereby lost. This method enables the reader to identify which English words or phrases represent the meaning of which words in the Arabic text. It has the additional advantage of keeping the meaning strictly to the wording of the text or importing in the meaning any word or expression that has no correspondence with anything in the text.
